Professional Summary

MERN Stack Developer with **3+ years of experience** building scalable web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in REST APIs, real-time communication with Socket.IO, AWS deployments, authentication, and performance optimization. Delivered production applications, improved API response times by **30%**, and mentored junior developers.

Technical Skills

Languages	:	JavaScript, TypeScript
Frontend	:	React.js, Next.js, Redux, TanStack Query, Context API
Backend	:	Node.js, Express.js, REST APIs, WebSockets, Socket.IO
Databases	:	MongoDB, MySQL
Cloud/Tools	:	AWS S3, EC2, Amplify, Cognito, Git, GitHub, CI/CD

Experience

MERN Stack Developer — Jun 2026 – Present
Marcom Avenue — *Gurugram, India*

- Contribute to **core product development** using **React.js, Node.js, Express.js, and MongoDB**, building and enhancing full-stack application features.
- Investigate and resolve **critical production bugs**, tracing issues across frontend components, backend APIs, and database operations.
- Develop and maintain **RESTful APIs** and reusable React components to support scalable, maintainable application workflows.
- Improve application stability through debugging, code reviews, API validation, and collaboration with cross-functional teams.

Product Engineer (React & Node) — Sep 2025 – Jun 2026
VAYUZ Technologies — *Noida, Uttar Pradesh*

- Developed full-stack features using **React.js, Node.js, and MongoDB** for a B2B SaaS platform with **5,000+ active users**.
- Built modular **Express.js REST APIs**, improving average response time by **30%** through query optimization and caching.
- Integrated **AWS Cognito** authentication with OAuth 2.0 and SSO support.
- Collaborated with product, design, and QA teams in bi-weekly sprints, delivering features with zero critical production bugs.

MERN Stack Developer — Jun 2023 – Aug 2025
Delimp Technology — *Noida, Uttar Pradesh*

- Built and maintained **6+ production web applications** with MERN, supporting up to **2,000+ concurrent sessions**.
- Optimized MongoDB and MySQL schemas, reducing complex query execution time by up to **45%**.
- Implemented **Socket.IO** live notifications and chat with sub-100ms latency.
- Created REST APIs handling **500K+ monthly requests** with **99.9% uptime**.
- Integrated payment gateways, Google Maps API, and AWS S3; improved asset load times by **35%**.
- Mentored **2 junior developers** through code reviews and pair programming, reducing PR review cycles by **20%**.

Projects

DLF Thrive – Gym Management System Web App

- Developed a full-stack **gym management platform** supporting **1,000+ daily users**.
- Implemented **real-time communication** and a posting mechanism using **Socket.IO** to enable interactive user engagement.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO

Anacity Anarock – Dashboard Platform Web App

- Worked on a **microfrontend architecture** and developed **drag-and-drop dashboards** for customizable user experiences.
- Implemented **request/response payload encryption** and **role-based dashboards** for secure, permission-aware access.
- Created a **reusable package** to support shared functionality across the application.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO

SideHustl – Real-Time Collaboration Web App

- Built live collaboration features supporting **500 concurrent users** with sub-150ms message delivery.
- Designed horizontally scalable services handling **10,000+ events per minute**.

Tech Stack: React.js, Node.js, Express.js, Socket.IO, MongoDB

Sugamya Ayurveda – Healthcare Platform Web App

- Developed consultation booking, real-time video appointments, doctor-patient communication, and medicine delivery workflows.

Tech Stack: React.js, Node.js, Socket.IO, MongoDB, Agora Video SDK, REST APIs

Education

JS University Shikohabad, Uttar Pradesh
Bachelor of Computer Applications (BCA) *Jul 2020 – Oct 2023*

Achievements

- Published an open-source **React.js and TypeScript** drag-and-drop, resizable UI component library achieving **5,000+ weekly npm downloads**.
